TRAINING & EDUCATION

Mason Knowles can provide education and training for contractors, applicators, suppliers and consultants on a wide variety of SPF topics including

- SPFA certification: roofing, building envelope & inspection
- Sales & Marketing: including product liability, prospecting new markets, estimating and more
- Onsite instruction in the art of spraying polyurethane foam, equipment maintenance and troubleshooting

Whether you have an experienced crew that could use some pointers in saving time and money or beginners who require intensive hands on instruction on sprayfoam technique, maintenance and troubleshooting of equipment, storage and handling and safety issues, Mason Knowles can assist your crew to spray better quality jobs while saving time and money.

CONSULTING SERVICES FOR THE BUILDING OWNER OR SPECIFIER

Mason Knowles is a completely independent consultant with one of the most diverse and accomplished polyurethane foam backgrounds in the SPF industry.

He is uniquely qualified to help troubleshoot problem projects and to conduct inspections for quality assurance or warranty

He has installed, managed and inspected thousands of roofing and insulation projects ranging from very small houses to million square foot roofs, tank farms and cold storage facilities.

He has authored dozens of technical guidelines, educational courses, documents and standards used throughout the SPF industry to educate sprayfoam professionals, specifiers and the public.

PRESENTATIONS & ARTICLES:

Knowles' specializes in making highly technical sprayfoam & polyurethane foam topics informative, interesting, educational and useful. He is an accomplished author with hundreds of articles, white papers and technical opinions published in national trade journals and magazines over 20 years

Whether it is an important presentation to a group of prospective clients, a large conference or event, or your own company's sales and technical staff, Knowles can provide just the right presentation or printed literature that you need.

SPRAYFOAM BUSINESS CONSULTING:

Mason Knowles has successfully managed contractor and sprayfoam supplier companies. His in-depth knowledge of the ins and outs of the business can help companies with sales and marketing, quality assurance plans, job efficiency, product liability and much more.
